Karawang, Indonesia | +62 857-5900-1522 | maulialhakim@gmail.com | [LinkedIn](#) | [Portfolio](#)

Information Technology graduate (Bachelor of Engineering in Informatics, GPA 3.48/4.00) with proven experience in software implementation, IT support, and technical documentation within a healthcare information system environment. Proficient in web development (HTML, CSS, PHP, JavaScript), database management (MySQL), UI/UX wireframing (Figma), and systems analysis. Demonstrated leadership as President of the Informatics Engineering Student Association. Eager to contribute to IT operations and digital transformation initiatives within a large-scale manufacturing organization.

WORK EXPERIENCE

IT Support Staff

PT. Evolusi Teknologi Indonesia • Sidoarjo, Indonesia • June 2024 – September 2024

- Implemented and configured software solutions to support hospital information system (HIS) operations, ensuring system uptime and alignment with business requirements.
- Conducted root cause analysis and systematic troubleshooting on software implementation issues, reducing escalation incidents through structured problem identification.
- Produced comprehensive technical documentation including implementation reports, activity logs, and issue-resolution records to support internal audits and knowledge transfer.
- Coordinated with internal development teams and external client stakeholders to ensure seamless software deployment and effective post-implementation support.
- Performed ongoing system evaluation and performance analysis to identify gaps between expected and actual system behavior, driving continuous IT service improvement.

Owner & Business Operations Manager

Mauli Pet Shop • Karawang, Indonesia • February 2025 – Present

- Oversaw end-to-end business operations including inventory management, financial reporting, and vendor coordination across grooming, boarding, and retail service lines.
- Deployed digital tools to monitor stock levels, track revenue and expenditures, and optimize pricing strategies based on competitive market analysis.
- Maintained consistent customer service standards and resolved operational issues proactively to uphold service quality and maximize customer retention.
- Applied data-driven decision-making for product procurement and service pricing, demonstrating strong analytical and business problem-solving capabilities.
